Professional Summary:

ITI-trained System Administrator with hands-on experience in Linux, Windows Server, VMware, Networking, and Cloud technologies. Skilled in automation, containerization, CI/CD, and infrastructure monitoring using Docker, Kubernetes, GitHub Actions, ArgoCD, Terraform, Ansible, Prometheus, and Grafana. AWS Certified Solutions Architect – Associate. Seeking to leverage my technical skills in a System Administrator, Cloud, or DevOps Engineering role.

Technical Skills:

- Cloud: AWS, Azure
 - Operating Systems: Red Hat Enterprise Linux, Windows Server
 - Networking: CCNA, TCP/IP, VLANs, DHCP, DNS, EIGRP, OSPF, VPN
 - Virtualization: VMware vSphere (ESXi, vCenter)
 - Containers & Orchestration: Docker, Kubernetes, Helm
 - DevOps & CI/CD: Git, GitHub, GitHub Actions, Jenkins, ArgoCD
 - Infrastructure as Code: Terraform, Ansible
 - Monitoring & Logging: Prometheus, Grafana, Loki
 - Databases: MySQL
 - Scripting: Python, Bash
-

Certifications:

- [AWS Certified Solutions Architect – Associate](#)
 - [ITI – Systems Administration Track \(Certificate of Completion\)](#)
-

Projects:

GitOps CI/CD Pipeline on Kubernetes

- Built a complete GitOps CI/CD pipeline using GitHub Actions, Docker, Kubernetes, and ArgoCD.
- Deployed the kube-prometheus-stack using Helm.
- Automated application deployment with image updates.
- Implemented monitoring using Prometheus and Grafana.
- Integrated Loki for centralized logging.

VMware vSphere Infrastructure

- Installed and configured ESXi and vCenter.
- Created and managed virtual machines.
- Configured networking and storage resources.

Windows Server Administration

- Built an enterprise Active Directory environment with OUs, users, and delegated administration.
- Configured DNS, DHCP, GPOs, shared folders, NTFS permissions, and FSRM.
- Implemented Active Directory replication and policy-based security across domain controllers.

Enterprise Network Implementation

- Designed and implemented an enterprise network using Cisco routers and switches.
- Configured VLANs, Inter-VLAN Routing, EIGRP, and DHCP.
- Secured the network using SSH, RADIUS authentication, and ACLs.
- Performed network troubleshooting and connectivity testing.

Relevant Technical Experience:

System Administration Trainee | Information Technology Institute (ITI) *Jan 2026 – May 2026*

- Completed 400+ hours of intensive hands-on training in Linux/Windows administration, networking, virtualization, and cloud DevOps tooling.
- Built end-to-end infrastructure, automated workflows using Bash/Python scripts, and deployed microservices on Kubernetes.

Other Work Experience:

Freelance Graphic Designer – Dec 2023 – Present (Project Based)

- Designed digital marketing and branding materials for freelance clients.
- Managed multiple projects while meeting deadlines and client requirements.

Sales Representative – Fawry | Jul 2025 – Oct 2025

- Promoted company services and achieved sales targets.
- Developed customer communication and problem-solving skills.

Production Supervisor – Cordoba | Aug 2024 – Dec 2024

- Supervised daily operations and coordinated team activities.
- Ensured production targets were met efficiently.

Education:

Bachelor of Information Systems

Faculty of Computers and Information, Minya University

2023 | Grade: Good

Languages:

- Arabic (Native)
- English (B2)
